New India Electricals Ltd.
Power House # 18, J.C. Road, Bangalore 560 002, INDIA

New India Electricals Limited, **established in 1969** and based in Bengaluru, India, is a leading electrical equipment manufacturer and exporter with over **55 years** of trusted service to heavy industry including mining, steel, cement, and power & utility sectors across Africa, Asia, and the Middle East. We understand the demanding operational requirements of continuous-process, high-load environments, from mineral extraction to steel rolling mills to grid-scale power distribution.

New India Electricals Limited exports to more than **45 countries** across Africa, Asia, and the Middle East - including Malawi, Zambia, Mozambique, Tanzania, Uganda, Nigeria, South Africa, Egypt, U.A.E., Oman, Bangladesh, Nepal, Myanmar, Sri Lanka, Ghana, etc. As an appreciation to our wide network and reliable international deliveries, we have also been awarded a Star Export House status by the Indian Ministry of Commerce and Industry.

Our primary focus is on serving the mining industry, steel mills, and utility companies apart from other large industrial sectors.

Core Products

Switchgear & Control Panels (LV/MV): Custom-designed panels for motor and pump control systems, manufactured at our ABB Licensed System House facility with full type-testing capabilities. (product catalog).

Motors & Drive Systems: Complete range of AC/DC motors (220V/380V/500V/550V/3300V), including energy-efficient options and specialized heavy-duty motors for harsh environments. (product catalog - ac motors, dc motors)

Transformers & TransmissionSystems: Power and distribution transformers designed for industrial and utility applications, including step-down transformers for various voltage requirements. We have executed projects of up to 230 kV. (product catalog)

Pumps: Industrial pumps for dewatering, slurry handling, and process applications critical to mining, steel, cement and water utility operations. (product catalog)

Substation Equipment: Complete substation solutions including CT/PT, power factor correction, and protection systems. (catalog)

Others: Consultation & Design, Power Management Systems, Turnkey Power & Substations Systems up to 230 kV

Proof of Engineered Quality – sharing a list of 'TYPE TESTS' conducted at Globally Accredited Test Labs such as CPRI & ERDA.

3.3 - 11kV Panels.

- Lightning Impulse Withstand Voltage Test – 11kV Indoor In/Out Panel.
- Short Time Withstand & Peak Current Withstand Test on Main Busbar – 12kV, 630A HT Panel.
- Continuous Current Test on Main Circuit – 12kV, 630A HT Panel.
- Internal Arc Fault Test (Busbar Side) – 11kV VD4 Switchgear Panel.
- Internal Arc Fault Test on Busbar Chamber – Indoor Switchgear Cubicle (40kA for 1 sec).
- IP4X Test – 11kV, 630A, 26.3kA VCB Type Test Panel.
- Dielectric Test on Auxiliary & Control Circuit – 11kV, 630A, 26.3kA VCB.

33kV Panels.

- IP4X Test – 33kV Indoor VCB Panel
- Lightning Impulse Voltage Test – 36kV Indoor VCB Panel.
- Short Time Withstand & Peak Current Withstand Test on Main Circuit – 36kV, 1250A Coupled Panels.
- Continuous Current Test on Main Circuit – 36kV, 1250A VCB Panel (Two panels coupled)

NIEL Production Capacity:

- ISO Certified.
- ABB Licensed & Certified.
- Factory capacity: 50 panels/month.
- Team of over 70 trained technicians, engineers and administrators.

Our Competitive Advantages

1. Cost Optimization

Having served price-sensitive markets across Africa, Asia, and the Middle East for decades, we understand the **optimization pressures** facing heavy industrial and utility operations as the need to manage cost structures increases. Our experience competing with Chinese manufacturers while maintaining superior quality positions us ideally for an increasingly cost-conscious industry.

2. Immediate Availability

Our extensive inventory includes over 4,000 motors of various sizes ready for immediate shipment from our three warehouses in Bangalore. This inventory approach minimizes downtime - critical in operations where every hour of lost production represents significant revenue loss.

3. Established Brand Partnerships

We are authorized dealers and distributors for globally recognized brands including:

- WEG
- Siemens
- ABB - Licensed ABB System House with certified manufacturing
- Transformers & Rectifiers India
- Other Brands: KSB, Kirloskar Brothers Limited, Crompton Greaves

This means we can supply the same quality equipment already trusted by many across industries, often at more competitive prices due to our bulk purchasing power and efficient supply chain.

4. One-Stop Electrical Solutions

From switchgear to cables, motors to transformers, we eliminate the complexity of managing multiple suppliers. Our clients benefit from consolidated procurement, consistent quality standards, and unified technical support. For priority customers, we even act as purchasing partners for ancillary accessories and non-electrical items.

Manufacturing & Operations Capability

Production Facilities:

- **Switchgear Manufacturing**: One facility near Bengaluru (Karnataka, India) Quality Certifications: Our switchgear manufacturing facility is an ABB Licensed System House, meaning ABB has certified our factory and directs customers to us. We maintain comprehensive type-testing, over-voltage testing, and other certifications. This facility has the capacity to produce 50 switchgear panels per month.
- **Motor Manufacturing**: Strategic partnerships with large-scale manufacturers in India and China
- **Warehouse Network**: Three stocking warehouses around Bangalore storing extensive ready inventory
- **Corporate Offices**
    - Company Headquarters - Bangalore, India
    - Other Locations in India - Mumbai, Raipur
    - Africa Headquarters - Malawi

Valued Customers Around the World

Africa

1. **ZESCO (Zambia)** – State-owned utility managing Zambia's electricity generation, transmission, and distribution.

2. **Konkola Copper Mines PLC (Zambia)** – One of Africa's largest copper mining companies.

3. **Benin Electricity Distribution Company (Nigeria)** – Major Nigerian power distribution utility serving 4 states.

4. **Motisun Group (Tanzania)** – Diversified African conglomerate with steel, cement, plastics, and real estate.

5. **Shayona Cement Corporation (Malawi)** – Malawi's largest local cement manufacturer.

6. **B5 Plus (Ghana)** – West Africa's leading steel manufacturing and trading company.

Middle East

7. **Qatar Steel (Qatar)** – First integrated steel producer in the Gulf, major regional supplier.

8. **Saudi National Steel (Saudi Arabia)** – Leading rebar producer for Gulf construction.

9. **Welspun Middle East (Saudi Arabia)** – Manufacturer of large-diameter pipes for oil & gas pipelines.

10. **Watania Steel (Saudi Arabia)** – Riyadh-based producer of billets and rebars for construction.

11. **Sohar Steel Group (Oman)** – Integrated steel producer in Sohar supplying rebars and billets.

South Asia

17. **BSRM (Bangladesh)** – Bangladesh's largest and most advanced steel re-rolling company.

18. **PHP Family (Bangladesh)** – Conglomerate with steel, float glass, and power divisions.

19. **Ambe Steels (Nepal)** – Leading TMT steel producer in Nepal.

20. **Abyssinia Integrated Steel (Ethiopia)** – East Africa's largest steel producer, serving the regional market.

India

Large Industrial / Steel Producers

1. **ITC Limited** – Diversified conglomerate (FMCG, hotels, agribusiness).

2. **Essar Steel (ArcelorMittal Nippon Steel India)** – Major integrated flat steel producer.

3. **Kalyani Steel Ltd.** – Alloy & special steels for auto and engineering.

4. **Shyam Metalics & Energy Ltd.** – Integrated steel & ferroalloy producer.

5. **Kirloskar Ferrous Industries Ltd.** – Pig iron & automotive castings.

6. **Real Ispat & Power Ltd.** – Raipur-based fully integrated steelmaker.
