1. HINDALCO INDUSTRIES LIMITED. BELAGAVI

PROJECT 1- Supply and Installation of 3 Nos, 33kv VCB panels for Alumina Plant Feeder 1,2 and 3. Dtd: 02.02.2022.

PROJECT 2- Supply and Supervision Charges for 11kv Bus Switchgear Upgrade and Augmentation. Dtd: 08.05.2023.

PROJECT 3- Supply/Service The Following Items Subject To The Terms & Conditions Mentioned. Dtd: 28.04.2023.

PROJECT 4- Supply and Application of Di Electric Bus bar Chamber Insulation Coating for 11kv. Dtd: 15.09.2023.

The Belagavi unit of Hindalco, located in Karnataka, houses an alumina plant, a world-class research centre for alumina, and a carbon paste plant.

The alumina plant started operations in 1969. Since the 1990s, the plant has become a predominantly export-oriented unit of special alumina and alumina hydrates for non-metallurgical applications, like refractory, ceramics, polishing, fire retardant filler in polymer composites, alum, zeolite etc.

OUTDOOR 33KV VCB PANELS

UNIQUE PROJECT PROPOSITION:

- REF615 relays Arc flash sensors
- Relays with IEC61850 protocol suitable for automation system.
- Insulation paint coating in bus bar chambers.
- Draw out PT mechanism
- Compact switchgears due to space restrictions.
- Maximum functions in single numerical relays (TCS, Transformer faults) for making cost effective.
- Loto Lock mechanism for breakers doors.
- Special scheme for Secondary tripping coil availability, if primary tripping coils fails.
- Auto change over scheme for two DC Battery supply.
- Provision for implementation of fire quenching system

Established in the year 2003, Sunvik Steels is the first integrated Steel Plant in Tumkur District, Karnataka spread over an area of 60 acres. It is one of the very few Greenfield projects that was completed, and started production within a record time of less than 10 months. Having started production in 2004, Sunvik Steels today has a production capacity of 300,000 MT & installed capacity of 500,000 MT. Further as a forward integration expansion, an Induction Furnace of capacity 150,000 MT and a Re-rolling mill of capacity 150,000 MT (presently) was set up in 2005.

3. HULAS STEEL INDUSTRIES LIMITED. NEPAL

PROJECT 1- Design Supply, Manufacturing And Testing of APFC PANEL WITH PCC. Dtd: 01.10.2019.

Please click on the link

https://drive.google.com/drive/folders/1c7KErx3PJ-K9F7ZoypE4CqHVWYJ60otQ?usp=sharing

Established in 1981 as a joint venture between Golchha Organization, Nepal, and Comcraft LTD, Singapore. Our brand ' HULAS' with the Rhododendron symbol has become synonymous with quality in roofing sheets, aluminum, poles, and structure. "HIPCO" Brand has become the leading brand in Galvanized and Black MS Tubes. Hulas Steel believes in creating sustainable growth by keeping in mind the environmental consequences and minimizing wastes. It also believes in achieving its business objectives ethically, transparently, and with accountability to its stakeholders across the value chain. Hulas is committed to promoting integrated responsible behavior and value for social and environmental well-being."

5. FIRE FIGHTING PANELS

- **CROSS FIRE SYSTEM- BANGALORE**

  PROJECT 1- Design Manufacturing Testing and Supply of 415V 3 Pump System Fire Fighting Panels. Dtd: 31.08.2020.

- **VARIESTOR TECHNOLOGY PVT.LTD- BANGALORE**

  PROJECT 1- Design Manufacturing Testing and Supply of 415V Fire Fighting Panels. Dtd: 01.01.2021.

- **NOORAIN ENGINEERING SYSTEMS- HOSUR**

  PROJECT 1- Design Manufacturing Testing and Supply of 415V Fire Fighting Panels. Dtd: 13.08.2022.

  PROJECT 2- Design Manufacturing Testing and Supply of 415V Fire Fighting Panels. Dtd: 21.12.2023.

- **NEXUSNOVOUS AIRPORT WASTE MANAGEMENT PVT LTD.- BANGALORE**

  PROJECT1- Design Manufacturing Testing and Supply of 415V Fire Fighting Panels. Dtd: 13.08.2022.

  Please click on the link

Fire alarm panel is the controlling component of a fire alarm system. The panel receives information from devices designed to detect and report fires, monitors their operational integrity, and provides for automatic control of equipment, and transmission of information necessary to prepare the facility for fire based on a predetermined sequence. The panel may also supply electrical energy to operate any associated initiating device, notification appliance, control, transmitter, or relay.

FIRE FIGHTING PANELS

6. VEERYA ATTACHMENTS PRIVATE LIMITED- KOLAR

ROJECT 1- Design Manufacturing Testing and Supply of 415V Panels. Dtd: 02.08.2021.

PROJECT 2- Design Manufacturing Testing and Supply of 415V Sub Panel 1 for unit3. Dtd: 09.08.2021.

PROJECT 3- Design Manufacturing Testing and Supply of Indoor LT panel for crane Applications. Dtd: 01.09.2021.

PROJECT 4- Design Manufacturing Testing and Supply of Indoor Distribution Board Box. Dtd: 03.11.2021.

7. POWER GRID CORPORATION OF INDIA LIMITED- TUMAKURU

PROJECT 1- Dtd: 27.07.2020.

- Manufacturing, supply,testing and commissioning of Main distribution board for colony.
- Manufacturing, supply,testing and commissioning of Main distribution board for each B1,B2,B3 and c- block.
- Manufacturing, supply,testing and commissioning of Main distribution board for D- block.
- Manufacturing, supply,testing and commissioning of Main distribution board for colony out door lighting panel type ACP-3

Power Grid Corporation of India Limited(POWERGRID), is a Schedule 'A', 'Maharatna' Public Sector Enterprise of Govt. of India which was incorporated on 23rd Oct 1989 under the Company Act, 1956. POWERGRID is a listed Company, with 51.34% holding of Government of India and the balance is held by Institutional Investors and public.

MAIN DISTRIBUTION BOARD

Project Name: New Hot Rolling Mill & Cold Rolling Mill plant in Nepal.

About the Customer : Narayani Steel/Narayani Strips (Nepal), a prominent player in the production of structural and rebar long products, is in the midst of establishing a state-of-the-art Hot Strip Mill and Cold Rolling Mill for Pipes and Tubes.

Products offered :

Product Group	*Rating / Detail*	*Quantity*
DC Motors	*750Kw*	*2 Nos.*
HT Panels	*11Kv VCB Panel Lineup – 1 Incomer + 3 Outgooing*	*1 Set*
Pumps	*End Suction & Horizontal Split Casing Pumps for Steel Mealt Shop*	*32 + 17 Sets*
HT Capacitors	*2600KVAR HT Capacitor Bank along with Reactor etc*	*2600KVAR*
DC Motors	*Assorted ratings of DC Motors*	*31Nos.*
AC Motors	*1000KW & 1100KW 690V AC Motors*	*4Nos.*
Power Transformers	*25/31.5 MVA - 66/11KV* *4MVA – 11-433V*	
Control Relay Panel	*66KV Control Relay Panel with required protections*	*1 Set*
HT Circuit Breaker	*66KV Circuit Breaker with related Outdoor Substation Equipment*	*1set*

Our team supplied and commissioned the equipment, overcoming timeline challenges to complete the project well ahead of schedule.

Project Name: BSRM Steels Limited, Steels -2 Revamping Projects, Mirsarai, Chattogram, Bangladesh.

Scope of Work : Design, Engineering, Manufacture, Testing, Supply, Transportation, Supervision of Installation and Complete Commissioning of Complete LT Package (Main PDB, MCC -3, MCC -4, PCC -3 And Agreed Spare Parts)

About the Customer : BSRM Steel Ltd (Bangladesh) is the leading steel manufacturing company and one of the prominent corporate houses in Bangladesh. Embracing a culture of continuous innovation and diversification, BSRM established BSRM Wires in Mirsarai, Chattogram, to produce a range of products including galvanized wire, ACSR core wire, LRPC Mig Wire, and Welding Electrodes.

We successfully executed the design, manufacturing, shipping, and commissioning of the panels within record time.

Project Name: Sunvik Steels Pvt Ltd (Bangalore) – 66KV Substation & Switchyard; New Block Mil Project Equipment

Scope of Work :

1. *Designing, engineering, manufacturing, testing, supplying, transporting, installing, and commissioning a 66KV Substation & Switchyard.*
2. *Supply of Main Block Mill, Auxiliary Motors, and Centrifugal units.*

About the Customer : Sunvik Steels Pvt Ltd (Bangalore) stands as the first Integrated Steel Plant in South India. Times Business Awards 2020 has chosen Sunvik TMT for the True And Most Reliable TMT Brand of 2020 in Karnataka. Sunvik has several downstream product extensions with manufacturing facilities for Sponge Iron, Billets, Power, and TMT Bars.

From Conceptualisation, Design, Evluating different technologies & options, detail engineering, procurement, manufacture, Installation, commissioning of 66KV Substation & Switchyard – We did it all!! This was a challenging project as we had to carry out all this work without disturbing the existing / old substation. We had to switch over from the old substation to the new substation in 1 day.
